

Because ... life happens

*"Me? I'm young and healthy. I don't need disability insurance."*

The fact is that one in four of today's 20-year-olds will become disabled at some point in their career, according to the Social Security Administration. That's a pretty big risk to take.

How long would you be able to meet your rent or mortgage, car payments, bills and other monthly expenses if you couldn't work?

Disability insurance is there for just that reason. If you were sick or injured and unable to work, it would replace a portion of your paycheck until you could work again. Think of it as insurance for your paycheck.

Life can happen in an instant, so protect your financial future with disability insurance.
